Permission to Land Procedures

Pilots must secure permission to land by contacting CBP
prior to departure from the foreign port or place and prior
to close of business on the last preceding business day.
Please call as far in advance of your trip as possible.

Permission to land is granted with a tolerance of (+/-) 30
minutes. If your ETA deviates outside these parameters,
previously granted permission(s) are invalid and you must
contact CBP to re-secure permission to land.

Inspection Process

- Aircraft should park on the ramp next to the CBP facility.
- The aircraft control tower can direct you in if needed.
- The CBP facility is not attached to the FBO or main terminal.
- A CBP Officer will meet the aircraft on the ramp to begin the inspection.
- All crew and passengers will be processed inside the CBP facility.
- Be prepared to present passports, visas, pilot's license, medical certificate, aircraft registration, and user fee decal (if appropriate).
- Regulated garbage is NOT authorized at this location (Canadian garbage is unregulated).

Special Procedures/Miscellaneous

- After hours, weekend and holiday arrivals must request permission to land, as above, and will be approved on a case by case basis.
- Reimbursable Services Program (RSP) requests are not authorized at this location.
- During your initial call for permission to land, advise CBP if transporting live animals, weapons, hunting trophies, or commercial imports (including importation of the aircraft itself).
- CBP Officers at this location service multiple airports and must travel to service aircraft arrivals; accurate ETAs and timely updates to ETAs are critical.
- For FBO information, contact Western Aviation at (509) 534-7371.

NOTE: For further detailed information regarding national GA processing standards and procedures, please refer to the CBP Private Aircraft Arrival Information Document or contact GAsupport@cbp.dhs.gov
